

Subject: Rivermont Collegiate Covid-19 update

Date: August 31, 2020

Dear Faculty/Staff and Rivermont Families

Today, I spoke with Scott Community Health to evaluate the status of a faculty/staff member who reported that a family member was exposed to an outside of the family Covid-19 positive case. No member of the RVMT Faculty/staff family has symptoms. Out of an abundance of caution, we asked the faculty/staff member to remain home today until an evaluation and clearance to return was completed. The faculty/staff member has been cleared by Scott County Health to return to campus.
