

Subject: Notice of Covid positive case

Date: October 15, 2020

Hello Parents of the 7th grade and teachers of the 7th grade,

I want to let you know in the interest of caution and transparency that a 7th grade student has tested positive for Covid-19. The student is on remote learning and will serve out the required quarantine before returning to school. Scott County Health is reviewing the case and is conducting contact tracing. Any student or teacher who is identified as a contact will be notified directly by Scott County Health. Our masking policy is protecting both students and teachers from exposure.

If you have any questions or concerns, please feel free to contact me. My cell phone for evening calls is 309 781-3738.
