

Subject: COVID-19 Update – To Parents of Second Grade
Date: November 18, 2020

Dear Parents of Second Grade,

Recently you and your second grade students have been aware that Katie Paris has been out of the classroom this week. Katie wishes for me to share with you that her health is fine (except for her seasonal allergies!), and she **has tested negative for Covid-19**. Katie did have the possibility of exposure off campus to a Covid positive person, and while no RVMT student, teacher or staff member was in any way exposed, Rivermont continues to operate in the most conservative and cautious manner. Therefore, Ms. Paris will, despite her negative test, complete a full 14 day isolation at home. Her return date is Nov 30. She will be in close contact daily with Rivermont teachers who will sub for her.

We wish you a safe Thanksgiving break.

Please give me a call on my cell with any questions or concerns 309 781 3738.
