

Subject: COVID update and Return to 2nd Semester summary
Date: January 04, 2021

Dear Rivermont Families,

Thank you to all families who have followed our return to second semester Covid safety policies. We have students who are quarantining and learning remotely for different reasons (returning international students, travel, hosting, etc.), but we have no report of a Covid positive student.

Our faculty/staff/administration are following the same return to second semester policy. We have one Upper School teacher who tested positive for Covid-19 during the break and is in isolation within their home. The teacher (who teaches only Upper School classes) had no interaction with any Rivermont teacher/staff/administration or student during the break. There is, therefore, no exposure risk to the Rivermont community. This teacher's Upper School classes are being covered until the teacher is able to teach remotely. We wish the teacher a speedy recovery and return to in person teaching.

If you have any questions, please call me directly at 309-71-3738.
